

## The Coast

**Ages 8-11**

Links in with the National Curriculum through Key Stage 2 Geography (Landscapes)

### PRE ACTIVITY

Objective - To encourage pupils to begin thinking about the coast and learning associated terms that will be discussed during the classroom sessions.

The coast wordsearch - included on separate sheet for photocopying.

### POST ACTIVITY

Objective - To reinforce information received during the classroom sessions and encourage independent thinking about coastal topics.

#### Individual Activity

Write down three facts about one coastal animal discussed in the classroom session. Discuss with a partner what the animal eats, where it lives and what they look like.

Then share with the class to compile factfiles about different coastal animals

#### For older children

Q - Can you think of any possible threats to our coasts? What might cause damage to coastal areas?

A - Pollution (e.g. recent oil spills), climate change, rising sea levels, over fishing.
